How does GreenPower work?

As an accredited GreenPower Provider, Next Business Energy purchases accredited GreenPower LGCs for the % of electricity usage you nominate. We will charge you for Next GreenPower at your nominated %, and then we buy GreenPower accredited LGCs to offset carbon emissions, for the amount you nominate.

Select your Next GreenPower Percentage

The Next GreenPower % will apply to your usage from your last bill.

Next GreenPower is sourced from accredited GreenPower Generators. By choosing 100% Next GreenPower you will be charged an additional **3.500 c/kWh** (inc GST) for 100% of your billed electricity usage.

Next GreenPower is sourced from accredited GreenPower Generators. By choosing 82% Next GreenPower you will be charged an additional **3.500 c/kWh** (inc GST) for 82% of your billed electricity usage.

Next GreenPower is sourced from accredited GreenPower Generators. By choosing 50% Next GreenPower you will be charged an additional **3.500 c/kWh** (inc GST) for 50% of your billed electricity usage.

Next GreenPower is sourced from accredited GreenPower Generators. By choosing 10% Next GreenPower you will be charged an additional **3.500 c/kWh** (inc GST) for 10% of your billed electricity usage.

Next GreenPower Commencement Date

☐ From the last meter read/billing date

☐ From the contract start date

Customer Acknowledgment

Important Information about this agreement

Please carefully read the information contained in this section.

Next GreenPower Terms and conditions

Next GreenPower charges are in addition to your electricity usage charges.

Discounts do not apply to Next GreenPower charges. Concessions or rebates do not apply Next GreenPower charges.

Next GreenPower charges are calculated by multiplying the GreenPower rate by the selected GreenPower % multiplied by your recorded energy usage for the billing period.

Next GreenPower does not apply to Demand charges.

Next GreenPower is accredited and audited by the National GreenPower Accreditation Program and subject to its scheme rules.

Commencement of Next GreenPower

Next GreenPower charges will commence where we are financially responsible for a site, from the contract start date, or next billing date (for each individual site in schedule 1) after acceptance of this agreement.

Variation of GreenPower Percentage

You may request to vary Next GreenPower percentages. Variations will apply from the next billing date following acceptance of a new Next GreenPower agreement.

Cancellation of GreenPower

Cancellation of Next GreenPower charges will occur from the previous billing date following receipt of a written cancellation request from an authorised representative.

Next GreenPower Price Variations

Next Business Energy may, with prior written notice, vary the Next GreenPower price applicable to this agreement.

Next GreenPower Termination

Next Business Energy will continue to charge you Next GreenPower until such time as you cancel this agreement, or until we are no longer FRMP for your site(s) listed in schedule 1.

Withdrawal of Next GreenPower

We may withdraw Next GreenPower by providing at least 20 Business Days prior written notice to you.

Is your business operating in the ACT?

The ACT government already offsets 100% of emissions from electricity used inside the territory, this is funded through charges that are included in all ACT electricity bills.

Explicit Informed Consent

By agreeing to purchase Next GreenPower from Next Business Energy Pty Ltd for the sites listed in schedule 1, you understand and agree:

- That you are a duly authorised to sign this agreement for the premise(s) listed in the Customer Details section above and in schedule 1 on the next page.
- That you have read and understood this Next GreenPower agreement form and terms and conditions
- That Next GreenPower will be charged to your accounts in addition to your electricity charges at the percentage and rate you have selected from the date nominated. Next GreenPower will apply to all sites nominated in this form until cancelled in writing, or Next Business Energy is no longer financially responsible for the site.
